Baslow Road, Bakewell, DE45 1AE

expected completion of this draft by 16th July 2017

Dear Ms Shirley,

The Parish Council are most grateful for your recent communication regarding the uses of the upgraded Parish Rooms , Reapsmoor. Our comments are;

Improve democratic process, as better facilities would assist in recruitment and retention of councillors.

Essential due to Health and Safety issues and Disability Discrimination Act

Improve community cohesion by using building as a Learning Centre, and social hub, in what is a scattered community with few opportunities to interact.

Install broadband, now considered as a utility, to improve decision making for the council and make it possible to provide IT courses for an ageing rural community.

We need proper facilities for playgroups and children's parties/get togethers.

We need proper facilities for teenagers to be somewhere safe and warm with refreshments and intra-net/internet facilities for Minecraft Club during long winters.

The Chair of the Parish Council would be most grateful if you are able to keep the Parish updated on any further developments with this project.

Your sincerely

Stephen Mansfield

for and on behalf of Fawfieldhead Parish Council
